

SE-1010 (Wired)

- Enhanced weak signal detection
- Comprehensive filters & anti-noise technology
- Advanced SEMIP algorithm for automatic measurements and interpretation
- Vector ECG, Timed VCG, SAECG

- HRT, QT interval dispersion
- HF ECG, Frequency spectrum cardiogram
- Multi-format reports transferrable via Email
- Stress test (optional)

SE-1010 (Wireless)

- Compact ECG transmitter with wireless design
- Vivid LCD display with operating buttons on the transmitter
- Enhanced weak signal detection
- Comprehensive filters & anti-noise technology
- Advanced SEMIP algorithm for automatic measurements and interpretation
- Vector ECG, Timed VCG, SAECG
- HRT, QT interval dispersion
- HF ECG, Frequency spectrum cardiogram
- Multi-format reports transferrable via Email
- Stress test (optional)
